

the Wet and Wild

Water Adventure

What do you get when you mix kids, fun, water, and one of the funniest children's performers out there? You get the most interactive, exciting, and WET show you've ever booked!!

The Wet and Wild Water Adventure brings the fun of a water park and the excitement of a game show to your next event. The show is perfect for hot days when you are trying to attract families. Anything that has to do with water during the summer, is a KID MAGNET!!!

Kids interact in game show type activities where **Everyone** comes out a WINNER! If members of the audience choose not to get wet, there will be an area available where they will stay mostly dry. But, if you're in the "soak zone", you will get WET!

All we require is an open outdoor space. Encourage your audience to bring their swim suits and towels, and be ready for some fun!!!!
